

I would like to thank you for all the efforts you had put in for all of us. I also thank Mr Martin, who was with us throughout the time.

The International Bursary is a good initiative to help surgeons from the less developed countries to come to the U.K. and experience the life at NHS. It was indeed a great learning experience for myself as I could visit the Aintree Hospital and the Royal Liverpool Hospital. I shall cherish the week at Liverpool. The conference was quite informative and also allowed me to interact with other colleagues and senior surgeons. This bursary gave me a deeper insight in the field of surgery and would definitely make an impact in developing my career. I also became aware of the surgical research going on which is lagging in our part of the country.
